

خرید دستگاه تله کاردیولوژی پرتابل با قابلیت اتصال از راه دور به سامانه تفسیر گلاسکو بدون نیاز به باتری با اتصال به تلفن همراه و نرم افزار تخصصی جهت ارسال داده با مشخصات زیر:

ECG Module

- ۶ lead wires
- Pace Detection and Rejection
- Ability to Filter environmental noises
- Plug-and-Play
- Real-time transmission of data to Smart phone application via USB-type C cable (using no W-Fi or bluetooth)
- No Battery (Powered by connecting to the USB-type C mobile port)
- Small dimensions (less than 110x70x30 mm)
- IMED Certificate
- Compliance with IEC 60601-2-25 International Standard
- Archiving the signals and reports
- Storing the patient history in a cloud based secure server to access the patient data
- Driving 12 leads ECG using 6 wires
- Running the Glasgow software to provide automated interpretation of ECG for heart health assessment
- Capable of transmitting the 12 lead ECG
